RE: SUSPECT HAROLD JOHN LAWRENCE, JR.

Enclosed for receiving offices is one photograph each of captioned suspect.

On 1/18/72, [REDACTED]
 Western Airlines Corporate Headquarters, Los Angeles, California, furnished the name of Captain HAROLD JOHN LAWRENCE, JR., as a possible suspect in this matter.

LAWRENCE was described as a white male, born 12/12/33, 6', 170 pounds, brown hair and brown eyes. [REDACTED] made available a colored photograph of LAWRENCE and a copy of his employment application.

LAWRENCE was reported as having a record for smuggling gold and marijuana in from Mexico and was last arrested in the fall of 1971 by the U.S. Customs Service, Los Angeles, for the theft of a large number of cancelled checks which he was trying to sell to a dishonest banker. He was terminated by Western Airlines as a pilot about one year ago.

Los Angeles file 163-141 captioned "HAROLD JOHN LAWRENCE; FPC", reveals in March 1962, the [REDACTED] and the American Consulate requested information through sub. 335

Legat, Tokyo concerning LAWRENCE. This file indicated LAWRENCE was once employed as a navigator by Flying Tiger Airlines and had claimed, under suspicious circumstances, that money was stolen from his hotel room in Hong Kong.

On 1/18/72, records of the California Department of Motor-Vehicles revealed HAROLD JOHN LAWRENCE, JR., born 12/21/33, had resided at 3004 Poinsettia, Manhattan Beach, California, as of 5/26/70.

Investigation revealed LAWRENCE had moved from the above address in early 1971 to 1813 Meadows Avenue, Manhattan Beach. On 1/24/72, a neighbor advised that LAWRENCE resides at 1813 Meadows Avenue with his wife and six-year old son and recalled LAWRENCE having driven her and her family home from Los Angeles International Airport on 11/26/71. She did not see LAWRENCE on 11/24/71, as she was in Alabama.

On 2/7/72, LAWRENCE was interviewed by SA's [redacted] and C. ROBERT STRANGER in the vicinity of his residence. He stated he had no knowledge whatsoever of the hijacking of the Northwest Airlines plane in Seattle on 11/24/71. He claimed he was definitely in the Los Angeles area at that time stating he had Thanksgiving dinner with relatives, but could not readily recall where he had Thanksgiving dinner. LAWRENCE added that he was unemployed and would probably have been with [redacted] on 11/24/71. He stated he would consult with [redacted] in an effort to recall exactly where he was and who he was with on that date.

b6
b7c

In view of LAWRENCE's vagueness as to where he spent Thanksgiving and the probability he will furnish names of close relatives to establish his whereabouts on 11/24/71, Seattle, Minneapolis and Portland are requested to display enclosed photographs to witnesses to ascertain if he should be considered a logical suspect.

UNSUB SHOULD BE CONSIDERED ARMED AND DANGEROUS.

Dear Sir:

Re: Hijacking Northwest Airlines
Date of Loss: 11/24/71
Claim#: [redacted]

Following our September 1, 1976 telephone conversation
re above I would like to bring you up-to-date on all the
recent tips we received due to the courtesy and cooperation
of the Northwest Orient Airlines:

1. As you have been previously informed we have been negotiating with [redacted] of Kirkland, Washington a salvaging operation on Lake Merwin, State of Washington. - We are preparing a contract with this independent entrepreneur. We will advise you when [redacted] will be ready to start and keep you posted on the developments.
2. We called attorney [redacted] of Naples, Florida on 8/23/76 in connection with his letter of 8/11/76 addressed to [redacted] of the Northwest Orient Airlines, copy attached. This is what attorney [redacted] told me: He knows a waitress, presently employed in Naples, formerly living in Miami, Florida. The woman alleges that she knew Cooper under his real name, not disclosed during our telephone conversation with attorney [redacted] Cooper had a detective agency in Miami and was using an alias Cooper on occasion. He was a paratrooper(?) and bragged that he would undertake some sort of a stunt or hijacking to get hold of [redacted]

money. The woman allegedly knows Cooper's friends and could help to trace him.

Attorney [redacted] told me that the Federal Bureau of Investigation was informed of those details about 2½ years ago, but apparently the information did not warrant the Bureau's attention. The attorney suggested a meeting in his office between the woman and a representative of our company.

For the time being this tip was laid to rest.

3. Following [redacted] of Oakland, California, dated 8/10/76, copy attached, I called [redacted] on September 1, 1976. He told me that he knows somebody who knows Cooper. Cooper is allegedly in the sheet metal business operations. [redacted] was told to get in touch with us if he has anything concrete to report. He wanted to know how much we were willing to pay for this information. I indicated to him that we would consider sharing the redeemable money on a reasonable basis. We were not told who [redacted] informer was. [redacted] was referring to this individual as his [redacted]. We are not attaching too much hope to [redacted] submitted "clue".

4. As I told you I had called [redacted] Napa, California. Please refer to the attached copy of his 8/15/76 letter to Northwest Airlines, Inc. Please confirm your statement that the parts of a parachute allegedly found by [redacted] did not match the material of the parachute used by D. B. Cooper. We will obviously abandon this lead based on the information supplied by you.

[Redacted] has previously been interviewed extensively on this case and several possibilities discussed with him. He had no suspects.

It is noted that lead in this airtel is to identify a parachutist who jumps in the water because of a disabling accident and one can assume this chutist is somewhat immobile. It is believed that the hijacker in this case has full use of all of his extremities and witnesses did not tell of any physical disability. It is noted that the person they want us to identify is in a wheel chair.

A man confined to a wheel chair did not hijack the plane in this case.

[] is of the opinion that the person responsible for captioned hijack was an extremely experienced parachutist and this individual is probably also a pilot. Many years ago when [] was in the military stationed on the west coast he did a great deal of parachute jumping. During this time he met a man whose name he cannot recall from Spokane, Washington, or near Spokane, Washington. He recalls that this man was a very experienced jumper; known by parachute clubs up and down the west coast and he fully recalls that this man was an experienced pilot. He described this man as follows:

Race	White
Sex	Male
Age	Approximately 45
Hair	Dark brown
Height	6'
Build	Slender

In 1968 [] learned that this man had "cracked up" and was now in a wheel chair. However, he heard that this man was making some "water jumps." 16

17 COUNT I

18 That beginning on or about the first day of
19 February 1972, and continuing to the date of this complaint,
20 in King County and Kitsap County in the Western District
21 of Washington, [REDACTED], also known as [REDACTED]
22 and Donald Sylvester Murphy, the defendants herein, did
23 wilfully and unlawfully combine, conspire and agree together
24 to commit offenses against the United States, to wit, to

25 [REDACTED] by
26 [REDACTED]
27 [REDACTED] Karl
28 Payne Fleming to travel in interstate commerce from Los
29 Angeles County, California to King County, Washington in
30 [REDACTED] Karl Payne Fleming
31 [REDACTED] DB COOPER-49280
32

It was a part of the conspiracy that the defendant

[redacted] also known as [redacted]

to an advertisement in the Seattle Times newspaper soliciting a contact from the alleged aircraft hi-jacker "D. B. Cooper", called Karl Payne Fleming at his home in Los Angeles, California on or about February 1, 1972 and stated that he

[redacted]
touch with "D. B. Cooper", knew his true identity and could arrange an interview.

It was further a part of the conspiracy that the defendants [redacted], also known as [redacted] and Donald Sylvester Murphy arranged for Donald Sylvester Murphy to pose as the alleged aircraft hi-jacker "D. B. Cooper". [redacted] photographed Donald Murphy wearing a wig and glasses and otherwise appearing much like the widely circulated "artist's conception" of "D. B. Cooper" and delivered a print to Karl Fleming [redacted]

[redacted] and Donald Murphy arranged to copy three twenty dollar bills with serial numbers taken from the ransom money list - superimposed - so as to appear to be copies of twenty dollar bills acquired by the alleged hi-jacker "D. B. Cooper" as ransom for the release of passengers on Northwest Orient Airlines Flight 305 at Seattle-Tacoma International Airport on November 24, 1971.

It was further a part of the conspiracy that the defendants [redacted] also known as [redacted] and Donald Sylvester Murphy falsely represented Donald Murphy

12 [redacted]
13 It was further a part of [redacted] that the
14 defendants [redacted], also known as [redacted]
15 and Donald Sylvester Murphy prepared Donald Murphy to pose
16 as the alleged hi-jacker "D. B. Cooper" by reading the
17 published information about the hi-jacking of Flight 305
18 and the alleged hi-jacker "D. B. Cooper" and otherwise
19 developing a plausible theory of the hi-jacking which began
20 with a "confession" of the crime. Extraordinary steps for
21 the security of the alleged hi-jacker "D. B. Cooper" such as
22 requiring that the cameraman and audioman recording the
23 interview do so from an extreme distance while wearing ear-
24 plugs, added credibility to the fraudulent scheme.

On May 1, 1972, I talked to Assistant Director BATES at the Bureau. I advised him that we had had the Agents who interviewed MURPHY observe and listen to the taped interview of the suspect by CARL FLEMING.

(1) The subject interviewed is definitely MURPHY, both by physical recognition and by recognition of his voice.

(2) Mr. PITKIN was of the view that he did not want to file a complaint until we actually had our hands on [REDACTED] and that I saw no reason whatsoever not to go directly to [REDACTED] to get it and I felt that this "mickey-mousing" around was unnecessary.

On 4-27-72, [redacted] was contacted at her place of employment, Washington State Highway Department on Corson Street, Seattle, and advised that [redacted] had telephoned her approximately one half hour ago and advised her that she had identified a photograph of DONALD MURPHY for FBI Agents at her place of employment in the Sea-First Building. [redacted] advised that she was unable to identify the photograph of DONALD MURPHY, however, she knew of him by reputation only. She stated that MURPHY was a close companion of [redacted] ROBERT SEEVER, who is currently separated from [redacted]. She advised that another companion of the two was one [redacted] in Bremerton, Washington. She advised that MURPHY was known as a promoter and con artist and that he shared these characteristics with his close friend ROBERT SEEVER, who also had the "wanderlust" and was a "sponger" whose only gainful employment was as a part-time bartender. She stated that MURPHY and SEEVER were birds of a feather and frequently exchanged articles of clothing such as shirts, sweaters and jackets. She stated therefore, that MURPHY must be similar in appearance to her son-in-law, ROBERT SEEVER.

She described ROBERT SEEVER as being over 6' tall, thin build, handsome, who usually wore a beard or mustache. She stated he had an olive complexion and had black hair which was basically straight but curly around the neck and had curly sideburns. She stated that [redacted] Bremerton [redacted] mentioned earlier, was a good friend of her [redacted] and probably was acquainted with DONALD MURPHY. She stated that [redacted] had, at one time, been [redacted] and stated that [redacted] did not have a good reputation among other attorneys and was not very business-like. She stated that [redacted] most distinguishing feature [redacted]

[] concluded by stating that she knew of no instances where the three ran around together or were in some type of business venture, however, repeated that both MURPHY and [] were close friends and that [] were close friends.

He has an office in Silverdale but she was unable to furnish the address. She has known MURPHY or known of him for over three years. She described MURPHY as appearing to be 55 years old but believes he is in fact 48 years old. He has an indentation in his forehead which is not particularly noticeable until he furrows his brow. She stated that at one time he advised her that he had two front teeth which were gold capped; however, she advised that it is difficult to realize that they are gold capped since they are discolored. MURPHY's [REDACTED] [REDACTED] is believed to be employed at the Keyport Naval Station in Bremerton, Washington. MURPHY and [REDACTED] see each other frequently.

Re: UNSUB; [redacted] - SOURCE

On 4/27/72 SA [redacted] of the New York Division, who is currently assigned the NORJAK case, telephonically contacted the Seattle Office to relate that he got the impression from talking to Newsweek Magazine representatives, that they more than likely would try to hold off making available [redacted] "D.B. COOPER" until a subpoena is obtained, although New York is still trying to obtain these items for review by FBI personnel.

[redacted] further advised that [redacted] to the New York Office [redacted] and one copy sent to the Bureau, but none to Seattle. [redacted]

b6
b7C

In addition, New York is sending to Seattle via Los Angeles, 20 pictures of "D.B. COOPER" without a wig which show very prominently a round depression-scar on the forehead. [redacted] noted that in listing a contact number, FLEMING used the unlisted telephone number 212-371-8684, an unlisted telephone number assigned to room of MAX PALEVSKY in the Sherry Netherlands Hotel, 59th Street and 5th Avenue, New York City.

The New York Division is currently attempting to develop background information on PALEVSKY.

[redacted] stated that from what FLEMING stated in his interview with New York Agents, he got the impression that [redacted] and "D.B. COOPER" lived in the same general area.

b6
b7C

FLEMING stated that he came to the Edgewater Inn, Seattle, on Sunday 2/20/72 and it was on that day that he paid [redacted] in the presence of "COOPER."

FLEMING advised that Monday, 2/21/72, was a federal holiday and "COOPER" made himself unavailable because he was going to Nevada or because his relatives were visiting at his home.

Since "COOPER" was unavailable on that day, FLEMING and [] drove around Seattle looking for secure places to photograph and record an interview with COOPER. FLEMING said that [] was an "idiot" because he at first suggested a public park which had too many people and later to another beach which was also unsuitable but they finally located another beach which they accepted.

b6
b7C

On the following day Tuesday, 2/22/72, FLEMING interviewed COOPER to get the details of the hijacking and said he actually interviewed "COOPER" over two or three different days. "COOPER" did not use prepared notes but gave the information "off the top of his head."

On the last day that FLEMING was in Seattle, he conducted what he termed a summary interview with "COOPER" which was the same day on which the photographing and recording was done by []

b6
b7C

During the photographing a Xerox copy of the three \$20 bills was held up by COOPER and was to be included in the picture. During the process, the Xerox copy was dropped and this apparently was what [] recalled when he was interviewed.

When asked what he had done with that Xerox copy of the money, FLEMING said he burned it right there on the beach.

SA [] advised that [] as presented to the Bureau and later to New York was typed by FLEMING himself and the "FORWARD" represents FLEMING's dream to get a story of the hijacker and of the call which finally started his story on "D.B. COOPER."

b6
b7C

[] said FLEMING felt at least 90% sure that he had talked to the hijacker while in Seattle and [] felt that probably in his wave of enthusiasm, FLEMING, an experienced newsman, overlooked what are now apparent shortcomings in questioning COOPER.

SE 164-81

SA [] advised that although there is nothing mentioned in the [] [] made some comment that might indicate that "D.B. COOPER" worked in the Parts Department of Boeing.

He referred to the "Manuscript" and memorandum which he sent to you recently. He said that a memorandum had been sent up to the Director and when it came back from the Director it had been extensively "blue-inked."

Among other things, the Director said, "Tell him we will have no part of this deal" and instructed "no investigation as a result of review of the Manuscript."

Specimens received from FBI, Seattle 4/27/72:

L 54904730 A, L 33529797 A and L 20168977 A**

Result of examination:

The bills represented by Q43 were compared with corresponding bills represented by K4. In the comparison, photographic overlays of the Q43 bills showed the serial numbers on these bills to be out of register with the serial numbers on the K4 bills.

The examination definitely determined that the Q43 bills are not a part of the ransom money represented by the K4 microfilm.

K4 is returned herewith. Appropriate photographs made from K4 and the ALSO SUBMITTED items are retained.

On 4/27/72 I called SA [REDACTED] at the Bureau and told him that undoubtedly in view of the laboratory examination of the Xerox copies of the bills, showing that they were not the same as the bills shown in the microfilm of the ransom money, together with the other facts, we knew this was obviously a fraudulent scheme and it had nothing to do with the hijacking.

I advised him, however, that to be doubly sure we were having the photograph of DONALD SYLVESTER MURPHY shown to the witnesses in Minneapolis and Portland, having already shown them to the Seattle witnesses, who have advised that he is not the hijacker.

In view of this, I suggested that we proceed now to develop a fraud by wire, or an ITSP case against the principal culprits, namely [REDACTED] and MURPHY, but in order to do this I felt before we instituted prosecution we should definitely establish whether FLEMING [REDACTED] as FLEMING CLAIMS, or [REDACTED] pointing out that the best evidence of this are [REDACTED]

b6

I cannot see why NEWSWEEK would not now produce these. He advised that a memorandum was going to [REDACTED] at the Department, outlining these facts to him and asking his advice as to the best method of obtaining the tapes and receipts.

I told SA [REDACTED] that we had obtained major case prints on MURPHY and would forward them to the Bureau today, together with his photograph, but in addition we were sending MURPHY's picture to Los Angeles to display it to [REDACTED] and [REDACTED] to insure that he is the individual photographed by [REDACTED]

b6

SAC [REDACTED] called me about this before he sent it. I called SA [REDACTED] at the Bureau and told him I had talked to USA STAN PITKIN in Seattle. It appears that since this matter was obviously a fraud, Mr. PITKIN advised if FLEMING did not voluntarily institute steps to turn over [REDACTED] then he would issue a subpoena duces tecum at once for them.

I called SA [REDACTED] in Los Angeles, told him about the contents of the teletype, asked him to get hold of FLEMING at once, point out to FLEMING that we were confident this matter was a hoax and that we were contemplating charging [REDACTED] and that we had identified the individual FLEMING had interviewed, who would also be charged, and that we wanted him to turn over [REDACTED] If he did not, then a subpoena duces tecum would be issued for them immediately.

Being sent to the Bureau by pilot courier is one roll of microfilm listing the ransom paid in the captioned case.

Making reference to the xerox copies of three \$20 bills which allegedly were in the possession of person identified as "D. B. COOPER" and given to Mr. KARL FLEMING, located on the microfilm and marked with a small piece of tape. These \$20 bills are as follows:

L54904730A, series 1969

L33529797A, series 1969

L20168977A, series 1969

It was noted that only the right half of the bill was microfilmed. When these bills were located on the microfilm, a print was made and a copy was included.

It is presumed the Bureau already has a xerox copy of the three bills with the corner folded over as originally made available to Seattle.

The above film is being sent via Northwest Airlines Flight 78, departing Seattle at 9:15 a.m. April 27, 1972, Pacific Standard Time, and arriving Dulles International Airport, 4:55 p.m. Eastern Standard Time, April 27, 1972.

He further advised that unless a vehicle was left in the parking lot for more than one day he would have no reason to check it out. He further advised that there is no Standard Service Station in LaCenter, but that there is a Mobile Service Station and a Texaco Service Station. He further advised that the old 76 Service Station has been out of operation for the past seven years. He added that there is a roller skating rink located in LaCenter and that it is next door to the Mobile Service Station.

On 4/26/72 I called SA REX SHRODER at the Bureau.

I told him we had some representatives of the Secret Service look at the Xerox copies of the bills purported to be in [REDACTED] possession.

I advised him that according to the Secret Service representatives there is always a capitalized letter and a small number on the upper left-hand corner of each bill. The same capitalized letter with the same or a different number appears in the lower right-hand corner of the bill.

On Bill No. 1 the number and letter in the upper left corner, according to the Xerox, is C 4. The microfilm of this same bill, however, shows the letter in the lower right corner of that same bill to be H, the letter being obscured. According to the Secret Service, both of these letters should be the same and clearly they are not.

With Bill No. 2, according to the Xerox the letter in the upper left corner is E 2, whereas the microfilm is rather unclear but there appears to be an F in the lower right corner.

He advised that the Bureau of engraving has looked at the bills and think that one of the digits in the serial number of bill No. 1 is off.

I told him we were endeavoring to locate the third bill and would let him know when done. In the meantime we were trying to get a clear look at Bill No. 2.

TO : SAC, SEATTLE (164-81)

DATE: 4-26-72

FROM : SA VICTOR R. MATOUS

SUBJECT: NORJAK

On 4-26-72, I called JIM ASHTON, Corporate Security, The Boeing Company, Seattle, in order to determine the feasibility of pulling the files of those employees terminated by The Boeing Company between 1/1-4/30/70. ASHTON advised that files of employees may or may not contain a photograph of the employee and that the badge photographs are destroyed upon termination. He said that he did not know exactly what the problems would be in obtaining these files but would confer with [redacted] and others and call me back.

ASHTON called back a short time later and advised that the number of Boeing employees terminated between 1/1-4/30-72, was 20,101. He said that it would take six employees a bare minimum of three weeks to merely pull the files. He said the number of individuals involved could be cut approximately in half by programming the computer selecting such individuals to select only salaried rather than hourly employees. (However, it is noted that profile of the individual involved indicates that he lost his job possibly between 1/70 and 7/70 and it is anticipated that the total number of employees involved during this period of time would be closer to 35,000 or 40,000.)

ASHTON said the computer, while it can be programmed for such data as Social Security Account Number, Name, etc., can not be programmed for personal history data such as married or single; children in family, etc.

ASHTON added that a project of this magnitude would involve certain budgetary conditions that would have to be handled at a fairly high level of Boeing administration [redacted]

He referred to the N York interview with FLEMING. He wanted to know if New York had called us. I said they had. He said that in view of the additional facts which FLEMING had given us, we should conduct vigorous investigation to try to establish the true facts in this matter. I told him we were already checking the motels at the airport; we were starting to locate a check on [redacted] we are attempting to obtain additional phone calls to any business phone which [redacted] might have.

I asked him what they had learned from the Bureau of Engraving with regard to the authenticity of 3 \$20 bills which appear in the photographs. He said that the only thing they could say was that the top bill, which bears the notation in the upper left-hand corner C 4, does not appear to be absolutely correct, in that the serial number should start with L 5 492, rather than L5 490, or else the little number up in the corner should have been B 4.

He said the Bureau of Engraving had no explanation for this, although he said it was always possible they could have made an error.

With regard to the other 2 bills, they have no significant comment to make. In other words, they can determine nothing wrong with them.

I stated to [redacted] it is quite important to know whether these bills are genuine or not. He said it would appear without seeing the actual bills, we were not going to be able to establish more definite information.

FLEMING said he would contact his attorney and would advise New York in the morning as to whether he would make available the receipt, the recording and the film which was taken at the beach.

RE: [REDACTED] - SOURCE

On 4/24/72 I talked to SA [REDACTED] at the Bureau. I told him that I had [REDACTED] in this matter very thoroughly. There were a number of obvious discrepancies.

First, [REDACTED] reflected the first move of the hijacker was made after they were aloft 10 minutes. I told him this was not accurate since it was made while the plane was still on the ground.

Second, the flight was Northwest Flight 405, not 305, as [REDACTED] indicated.

Third, the passengers were allowed to alight from the front steps, not as [REDACTED] says, the back.

Fourth, the money was taken in a sedan, not a small bus, as [REDACTED] says.

Fifth, the wind was a west wind blowing east, not an east wind as [REDACTED] says.

I told him that the photograph of the man in the street was positively taken in Bremerton. Further, we had located a witness who said about 4 or 5 weeks ago 3 men came into a wig shop, got a wig, put it on a bald-headed man, took a photograph, and she identifies the picture as being of that man.

Further, [REDACTED] had told us on viewing this picture of the man in the street that she believed he was identical with the man at her residence on 4/21/72, and [REDACTED] had seen him at the residence on 4/22/72 and he was there again this morning, to be bitten by her Weimaraner dog.

I told him that we had been unable to locate [REDACTED] but that we were still continuing our efforts to do so and we were expanding our efforts to identify the man in the wig in the street.

On 4/24/72 [redacted] Division 6, called with respect to Seattle teletype to New York, Los Angeles and Bureau on 4/23/72. [redacted] advised that they feel at the Bureau that the key to the whole episode is with [redacted] and had numerous questions to ask about how [redacted] first got in touch with each other. It was explained to [redacted] that [redacted] had read a "D.B. COOPER ad" in the newspaper placed by KARL FLEMING which apparently was the basis for their contact.

only if the author had absolutely nothing to do with the crime itself but was merely writing about it that there probably would be a recommendation for no prosecution of misprison. He indicated he had no intention of granting immunity for someone involved in the hijacking.

Making reference to the mention of the manuscript of the hijacker stashing a car at LaCenter and also mentioning Woodland, Washington, he thought these pictures should be shown in those areas to see if we could identify the person in the pictures. I suggested that since we already have the possibility of unlocking this entire thing through the fact that [redacted] were having a confrontation this morning, refereed by two Bureau Agents, that the latter might furnish the solution. It was explained we had checked the Greyhound bus stop at Woodland which indicated there were no tickets sold on 11/24/71 but that SF, where all such records are maintained, has been asked to verify this.

[redacted] said our abovementioned teletype did not state that pictures of [redacted] were being sent to LA to determine from [redacted] if this is in fact the [redacted] who drove them around. [redacted] was advised that pictures had been sent to LA with that request.

In summation, [redacted] said, "put heat on it because it is hot back here."

[REDACTED] stated that approximately five weeks ago on a Saturday, three men came into her store which features mens and womens wigs and hairpieces. She stated the individual in the photograph indicated he had made a bet with the other men that he wouldn't get dressed in a wig. She stated one of the other men had a Polaroid camera with him. [REDACTED] fitted the man with a wig and he stepped out the front of the store where his photograph was taken and then the wig was removed.

[REDACTED] further identified this individual only as being bald except as having a fringe of brown hair around his temples, top of his ears, and around in back of his head.

She described the other two individuals as #2 being dark complected, possibly of Spanish extraction and stocky build, no beard; #3 was only described as a stocky white male. No car was observed.

She said that in the picture with the wig, the part he has hanging down the back, is actually UNSUB's and not the wig. She said she teased him about braiding it. She said his ears protruded and he smelled of alcohol and smoke.

Pursuant to your instructions I called SA [] at the Bureau, asked him to furnish this to the photo people back at the Bureau; have them make us some pictures without the wig based on this description and get them to Seattle by the fastest possible means, tomorrow if at all possible.
